# **JICA Knowledge Co-Creation Program for Long Term Participants (JICA Development Studies Program)**

## **General Information on SDGs Global Leader Program for Sub-Saharan African countries**

**JFY2026**

This handout provides an overview of the “SDGs Global Leader” program/course, which is one of Japan International Cooperation Agency (JICA)’s Knowledge Co-Creation Program (Long-Term). The program will be implemented as part of the Official Development Assistance of the Government of Japan based on bilateral agreement between respective governments.

The objective of the Knowledge Co-Creation Program (Long-Term) is to offer opportunities to people from developing countries to study at higher educational institutions in Japan and to help them build their network of people. This is intended to assist in the human resource development plans of the governments of developing countries and Japan, and eventually to expand and strengthen bilateral ties between the developing countries and Japan.

# 0. Background

## **What is JICA Knowledge Co-Creation Program (KCCP)**

The Japanese Cabinet revised the Development Cooperation Charter in June 2023, which stated, "In its development cooperation, Japan has maintained the spirit of jointly creating things that suit partner countries while respecting ownership, intentions and intrinsic characteristics of the country concerned based on a field-oriented approach through dialogue and collaboration. It has also maintained the approach of building reciprocal relationships with developing countries in which both sides learn from each other and grow and develop together." JICA believes that this 'Knowledge Co-Creation Program' will serve as a foundation of mutual learning process.

## **What is JICA Development Studies Program (JICA-DSP)**

Japan is the very first country and still is one of the very few countries that has modernized from a non-Western background to establish a free, democratic, prosperous, and peace-loving nation based on the rule of law, without losing much of its tradition and identity. With such belief, JICA invites future leaders from partner countries to Japan under KCCP, and offers them opportunity to learn about Japan's unique modernization and development experiences. This special program is called, JICA Development Studies Program (JICA-DSP).

JICA-DSP is provided to all participants of KCCP during their stay in Japan. JICA will offer participants various opportunities through which they can learn about Japan's modernization and development experiences.

# 1. Overview

Until now, JICA has provided training programs as a part of technical cooperation in various fields. In order to strengthen networks between the target countries in respective fields, JICA established a new long-term training program to foster young/middle-aged bureaucrats, academicians, and leading human resources in various fields of target countries who are capable of influencing policy-making processes in their countries or contributing to socioeconomic development in the near future.

## 2. Objectives

In addition to curriculums of the master's and Ph.D. courses, activities such as short-term programs (e.g. Understanding the Japanese Development Experience<sup>1</sup>), and/or internship programs will be planned in order to enrich the participants' academic and personal experience of their courses of studies at the universities.

Accepted applicants are recommended to participate in internship programs at public or private entities during their stay in Japan. In principle, no reward or compensation should be paid to the participants or host organizations.
